

AARUSHI CHAURASIYA

Software Engineer — Java Full Stack Developer — AI Enthusiast

ADB Road, Aditya Nagar, Surampalem
+91 8102345323 — aarushi.inplace@gmail.com
GitHub — LinkedIn

Professional Summary

Computer Science Engineering undergraduate with strong foundations in Java, Python, SQL, Data Structures, Algorithms, Object-Oriented Programming, and Full Stack Development. Hands-on experience developing Java applications, responsive web interfaces, database-driven systems, and AI-powered solutions. Familiar with Docker, Kubernetes, LangChain4j, and Google Gemini API. Passionate about building scalable software and solving real-world engineering problems.

Technical Skills

Programming Languages	Java, Python, C, C++, SQL, JavaScript
Web Technologies	HTML5, CSS3, JavaScript
Backend	Java, JDBC, Object-Oriented Programming, REST API Fundamentals
Database	MySQL, Oracle SQL
AI Technologies	Generative AI, LangChain4j, Google Gemini API, Prompt Engineering
DevOps & Tools	Git, GitHub, Docker, Kubernetes, VS Code, Figma
Core CS	Data Structures, Algorithms, DBMS, Operating Systems, Software Engineering

Projects

AI Chatbot using Python

- Developed an intelligent chatbot using Python and Natural Language Processing techniques.
- Implemented intent-based response generation with modular architecture.
- Designed reusable components for future LLM integration.

Student Management System (Java)

- Developed a Java application using Object-Oriented Programming principles.
- Implemented CRUD operations with validation and persistent storage.
- Improved maintainability through modular code organization.

Library Management System (MySQL)

- Designed a normalized relational database for library operations.
- Wrote optimized SQL queries for inventory, issue, and return management.
- Enforced keys and constraints to ensure data integrity.

College Event Website

- Developed a responsive website using HTML5, CSS3 and JavaScript.
- Designed interactive user interfaces with mobile-friendly layouts.
- Improved usability and accessibility across multiple devices.

Certifications

Full Stack Java Internship – SkillDzire	2025
Advanced Python: Top Tools for Data Science and Engineering	2025
Learning the JavaScript Language	2025
SQL Essential Training	2025
Oracle Database 19c: Advanced SQL	2025
Docker: Build and Optimize Docker Images	2025
Kubernetes: Microservices	2025
Introduction to Building Generative AI Java Applications using LangChain4j	2025
Getting Started with Google Gemini API	2025

Education

Bachelor of Technology in Computer Science and Engineering

Aditya University

2023 – 2027

Current CGPA: XX.XX / 10

Intermediate (+2)

Swami Vivekananda Public School

2023

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Software Engineering
- Computer Networks
- Web Technologies

“ “\latex

Achievements

- Completed multiple industry-oriented certifications in Java, SQL, Docker, Kubernetes, Generative AI, and Cloud technologies.
- Built academic and personal projects demonstrating strong problem-solving and software development skills.
- Actively learning Java Full Stack Development and modern AI application development.

Additional Information

- Strong interest in Software Engineering, Backend Development, and Artificial Intelligence.
- Comfortable working in collaborative Agile environments using Git and GitHub.
- Quick learner with strong analytical thinking and problem-solving abilities.
- Passionate about continuous learning and building scalable, production-ready applications.
